Sometime in the coming week the city council will assemble for a conference with members of the state board of health, the secretary of the board having advised Mayor Glysson that it would convene in Barre during the 104th annual meeting of the Vermont State Medical society.

Baseball and football are to share the attention of sport fandom in Barre today, and while the world's series game between New York and Chicago, to be played in the Windy city, will probably occupy the center of the stage, the gridiron sport is not without its devotees and a considerable crowd will gather at the seminary campus to see Goddard seminary and the Norwich sub-varsity team in action. It is to be the first game of the season and followers of football on the hill-top will have an opportunity to see what Coach Charlie Horne and his assistant, Mr. Early, have done with the talent at their disposal. The game begins at 3 o'clock. The fan whose whole interest is bound up in the world series affair will have ample facilities for keeping in touch with the game. At the Barre opera house an electric score board will depict every play, while the inning stories of the game will be received elsewhere in the city.

Have You Visited Our Garment Department? You Have to be Especially Careful in Your Coat and Suit Selection This Season, Because Good Fabrics Are Scarce

The demand and line of the new silhouette conspire with the weather indications to crowd our coat department daily. What a coat season fashion has made it. Every woman who would be in vogue must have one of these fetching creations brought this fall. But the right coats are terribly scarce. The new ideas make a heavy demand for unusual materials, and as everybody knows, really good garment materials are hard to get.

Ladies' Tailored Suits

We are fortunate in securing garments from the best Suit and Coat makers of New York and Cleveland; we placed large orders early, and now have an unusually large display of the season's best Suit values at prices that are not so much higher in price than former seasons. The quality is the best, and many of the models are very conservative, are built on straight, long lines, making a Suit that is graceful and stylish.

You will be more than pleased by these soft, silky new fabrics, so light and warm—developed in the shades now so sought after.

They are well worth seeing, whether you are wanting to buy or not.

Here you will find All-Wool Poplin Suits made in the season's best styles and in the best of shape, at only \$20.00.

In the better Suit values that are made in such cloths as Velours, Broadcloths, Poplins, Serges, Burellas, and Rib-Radier cloths, you will find an assortment of styles and qualities at prices from \$22.50 to \$50.00. These are high-class Suits that will appeal to all who want the season's newest and best Suit values, and when you consider the length and fullness of the Coats to these Suits, you will be more than pleased with their values. We are anxious to show you the line.

In our Millinery Department you will find an assortment of the season's best and latest hat values. When you stop to consider the advance in price of all velvets and everything that goes in to make a good hat value you will be more than pleased with the values we can give you. Visit this department when in to see our suit and coat lines.
